RACCORDI IN OTTONE A PRESSARE | BRASS PRESS FITTINGS

100% MADE IN ITALY | THE ITALIAN HIGH QUALITY

RACCORDI IN OTTONE FILETTATI

I raccordi in ottone della serie filettata sono progettati per essere utilizzati in molteplici ambiti, sia civile che industriale. Infatti sono idonei alla realizzazione di impianti idrosanitari sia con acqua calda che fredda, in impianti di riscaldamento/raffrescamento e per aria compressa.

Offrono diversi vantaggi: resistenza alla corrosione, durabilità, facilità d'installazione e versatilità.

E' disponibile un'ampia gamma di raccordi sia per quanto riguarda la figura che il diametro, inoltre possono essere forniti gialli sabbiati, nichelati o cromati.

BRASS THREADED FITTINGS

The brass fittings of the threaded series are designed to be used in multiple fields, both civil and industrial. In fact, they are suitable for the construction of hydro-sanitary systems with both hot and cold water, in heating/cooling systems, and for compressed air.

They offer several advantages: corrosion resistance, durability, ease of installation, and versatility.

A wide range of fittings is available in terms of both shape and diameter, and they can also be supplied in yellow sandblasted, nickel-plated, or chrome-plated finishes.
